H: Reading Comprehension

Doctors in Britain are worried because British teenagers eat lots of chips, sweets and fat food. Most teenagers don't have enough fruit or vegetables and more than one million British school children are overweight. Some teenagers say that they don't have time to eat good food, but kids who have a poor diet often have health problems when they are older.

Americans have been familiar with fast food for a long time, it was born there.

American fast food is now a part of life far beyond the shores of United States.

McDonald's Pizza Hut, Burger King have restaurants all over the world

Now doctors are giving young people books and games about a good diet.

Having healthy, well-balanced diet can help you feel better and live longer.

۱

Read the passage and then write True/ False for the following sentences.

1. A great percentage of British school children are fat.
2. Fast food restaurants were born in France
3. Fast food restaurants are popular around the world
4. To keep our body healthy we need a steady diet of burgers.

Knowledge is power

	<p>I never used to worry about my health until recently. When I was a kid, I did loads of exercise. Even in my twenties and thirties I was very fit and never ill. I have been lucky all my life – always in the best of health. I rarely get even a cold. I suppose time catches up with you. Now I seem to be getting lots of little aches and pains. I should go to the doctor for a health check, but I’m too busy. The older you get, the more you worry about your health. One good thing is that I’m eating more healthily now than ever before. I no longer have fast food and midnight snacks. I also sleep a lot more. I’ve read that getting seven or eight hours sleep every night is one of the best things you can do for your health.</p>	۱
