L	<p>Read the following paragraph and then answer its questions.</p> <p>An endangered language is one that is likely to become extinct in the near future. Many languages are falling out of use and being replaced by others that are more widely used in the region or state, such as English in the US or Spanish in Mexico. Unless existing trends(روند) are inverted, these endangered languages will become extinct within the next century. Many other languages are no longer being learned by new generations of children or by new adult speakers; these languages will become extinct when their last speaker dies. In fact, dozens of languages today have only one native speaker still living, and that person's death will mean the extinction of the language: <u>It</u> will no longer be spoken, or known, by anyone.</p> <p>43. Many languages today have only one native speaker. a. true b. false</p> <p>44. An endangered language is one that is likely to die out in the far future. a. true b. false</p> <p>45.
