Using new technologies has changed people's lifestyle in a harmful way. Some technologies are dangerous to our body parts and mind. Using mobile phone or surfing the internet for long hours can increase people's blood pressure and causes sleep problems. Playing video games for long hours make people nervous, and harm their heart and nervous system. Listening music by headset can be harmful to one's hearing and even brain.

Using technology in a wrong way has created bad habits and new types of addiction. It is not strange to call someone an internet or mobile addict. Technology addicts are people with serious problem to control themselves to use various kind of technology, in particular the internet, smartphones, tablets and laptops. Technology addicts do not like to socialize with people; instead, they prefer to be alone, spending lots of their time working with their device. This makes them depressed and impatient.

Specialists have found different ways to cure technology addicts. They suggest that these people should spend more time with their friends and family members, do daily exercise and limit the time of working with technologies. They also need to enjoy nature and have regular plan to travel.

- 1. What is the result of using mobile phone and surfing the net for a long time?
- Y. Who is a technology addict?
- γ. What do technology addicts prefer? _____
- ٤. What do specialists suggest to cure technology addicts?
