4	<p>Read the passage and then answer the questions.</p> <p>In 2011, eight percent of children eight-years old and younger used mobile devices daily. That’s according to a report from Common Sense Media. This organization studies issues of concern to teachers and families. By 2015, their report shows that figure had more than doubled. Many pediatricians are concerned. In my view, they are right to be. These caring doctors state that this trend is disturbing and needs attention. They focus on data indicating that excessive media use by young children is linked to fatness lack of sleep, and aggressiveness. They also know that too much media use negatively affects school performance. The American Academy of Pediatrics (AAP) suggests a plan to handle the problem. The doctors encourage families to set rules about TV consumption, texting, Internet surfing, and social media use. They recommend limiting all four. As I see it, they are the people who know best.</p> <p>48. Which of the following best describes the author’s view towards children’s use of mobile phones and other media devices?</p> <p>a.
